Y11 Study Skills Evening 2022

Mathematics

Path to Examinations

Classwork

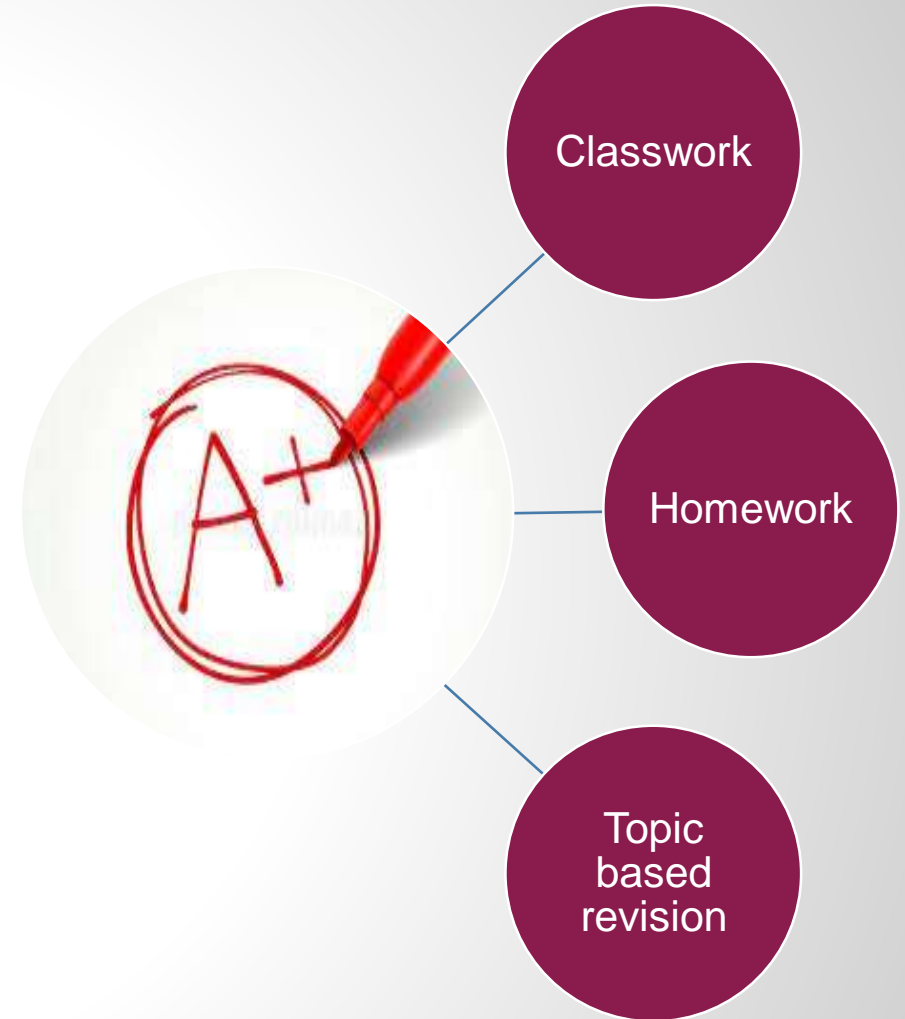

Topical Revision linked to the advanced notice for GCSE Test Cycle to improve our execution of exam questions
Statets are based on exam weaknesses
Test cycle data will inform teach for the following 2 weeks

Homework

10 weekly mathswatch questions relating to Paper1, Paper 2, Paper 3.
These will be for recapping only

Topic Based Revision

Mathswatch tasks will be set by your teacher
Students should also use their tesy cycle feedback to support their own revision on mathswatch.

Advanced Notice

Foundation

Paper 1

Number (see Ratio)		Clip
Arithmetic	Four operations	17,18,19,20
	Negative number	68
	Order of operations	75
	Estimation	91
Fractions	Arithmetic	71,73,74
	Fraction of a number	72
Indices	Laws of Indices	82
Standard Form	Conversion	83
	Calculation	83
Other	Inequality notation	138
	Systematic listing	58,69

Brookfield Community School Maths Dept Revision Cycle.

Things that we do in maths to aid exam preparation:

- We do not assume students know how to revise
- We ask all students to follow our revision cycle
- We monitor results of students and plan our lessons around these results

BROOKFIELD COMMUNITY SCHOOL
COMMITTED TO EXCELLENCE

Brookfield Community School Maths Dept Revision Cycle.

- The best way to show what we do is to make you part of it.
- You all have three maths questions in front of you and you have 2 minutes, in exam conditions, to answer them.
- You are now allowed to confer with others

Brookfield Community School Maths Dept Revision Cycle.

We then use a lesson to go through the test paper with students and react in red pen all over the test.

Q1 Each week Farooq is given a spelling test.

Here are his marks.
Each mark is out of 20.

17 13 17 16 14 15 15 18 17 17

(a) Write down the mode. 17 occurs the most [1 mark]

Mode = Most

Answer 17

(b) Work out the range of his marks. $18 - 13 = 5$ [1 mark]

Range = Big - Small

Answer 5

Q2 The number of emails Leanne sent this week is 20% more than last week.

This week Leanne sent 240 emails.

Work out how many emails Leanne sent last week.

[2 marks]

Answer 200

Do NOT find 20% and then take it
off
 $240 - 48 = 192$

Q3

The angles in triangle ABC are given in degrees.

Prove that $AB = AC$.

[4 marks]

$$\begin{array}{rcl}
 5x - 8 & = & 3x + 20 \\
 - 3x & & - 3x \\
 \hline
 2x - 8 & = & 20 \\
 + 8 & & + 8 \\
 \hline
 2x & = & 28 \\
 \div 2 & & \div 2 \\
 \hline
 x & = & 14
 \end{array}$$

$3x + 20 = 3 \times 14 + 20 = 62^\circ$
 $5x - 8 = 5 \times 14 - 8 = 62^\circ$
 Angle $B =$ Angle C and so $AB = AC$

FEEDBACK

- We then take the test papers in to mark and produce an individualised grid of how students have achieved on each question.
- Students then use this to select topics they can go away and research for themselves (this is monitored by staff).
- Staff also use the grid to inform the planning of lessons.

We then take the test papers in to mark and produce an individualised grid of how students have achieved on each question.

Y11 REVISION WORKSHOP

- The hardest part of revision is knowing how to revise!
- The best way to revise maths is to do maths.
- Answering different types of questions is really important and so the more we can answer as part of our revision, the better.
- Building resilience through exposure to a large variety of questions

BROOKFIELD COMMUNITY SCHOOL
COMMITTED TO EXCELLENCE

REDHILL ACADEMY TRUST
Exsisto Optimus

Y11 REVISION WORKSHOP

- As a department we will structure their revision for them.
- Your child just needs to follow the systems we have in place.
- It is tailored to their individual needs and has worked in the past.
